

Greetings,

Because of the lack of precipitation and the potential for extreme wild fire conditions to exist in our state again this year please remember the transportation policy enacted by Dr. Bunce concerning vehicle requirements in the event of an evacuation from either Inlow or Sivells. The policy is below. If you have any questions please do not hesitate to call us. We just want everyone to be safe.

Thanks so much for your understanding!

Sam

## **BCNM TRANSPORTATION POLICY**

A new policy has been enacted at BCNM which will require the churches who are bringing youth and sponsors to camp, to transport them in vehicles which can be left at the camp. Like you, we care very much about the safety of our youth and sponsors and with the severe drought conditions we have had over the last couple of years, the possibility of a wildfire is on the forefront of our minds. We now must have enough seats to evacuate all the people who are on the campus in the event of a disaster. We simply want to be prepared.
